in Ali Osama

Profile

An enthusiastic and detail-oriented Junior Frontend Developer with proficient knowledge in HTML and CSS, as well as third-party libraries such as React and Tailwind. Seeking to utilize my technical skills and expertise to provide value to the employer and contribute to successful projects both today and in the future. Aiming to take on new challenges and utilize my coding and debugging skills for developing new features and enhance the overall user experience.

Education

2020 – 2024	**Bachelor of Science in Computer Science**
	Assiut University

Skills

Technical skills:
HTML, CSS (flexbox, grid), JavaScript (ES6+), Responsive Design, React, Redux toolkit, git, github, tailwind and sass

Soft skills:
Communication, Problem solving, Teamwork, Time management, Attention to Detail, Critical thinking, Adaptability

Projects

Admin Dashboard: ⧉
Developed a comprehensive Admin Dashboard using React.js, providing administrators with powerful tools and insights to manage the platform effectively. The dashboard offers a user-friendly interface, real-time data visualization.

Coindom Crypto: ⧉
Created an informative Coindom Crypto Explorer website using React.js and sass and leveraging the Coindom Crypto API. This project serves as a one-stop platform for users to explore real-time information about various cryptocurrencies, including market data, price trends.

Social media website clone: ⧉
Developed a modern and visually appealing Social Media UI website using React.js, providing users with a user-friendly interface.

Youtube clone (under development): ⧉
Developed TubeClone, a YouTube clone website that replicates the core functionalities of YouTube using the YouTube API. TubeClone provides users with a familiar and user-friendly platform for discovering, watching and searching.T

To-do App: ⧉
Created VanillaTodo, a straightforward and efficient Todo App using only Vanilla JavaScript, HTML, and CSS. The project focuses on simplicity, ease of use, and a clean user interface to help users organize their tasks effectively.

Millionaire quiz: ⧉
One of my first websites using React js. Who wants to be a millionaire game using only useState hook for state management and 3rd packages to add sound effects
